***Allowable Subject Matter***

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 12 and 21 more particularly define a method, a system and a computer program product for managing on-demand resources in an automated data storage library. The system includes; a plurality of removable serialized resources, a data storage frame which consists of a plurality of storage shelves, a data storage drive, an accessor for transporting data storage cartridges between storage shelves and storage drive, and a processor for configuring the removable serialized resource for operation, disabling operation of remaining removable serialized resources, restricting configuration access to the non-operational serialized resources and initiating a request to make the non-operational serialized resources operational. These particulars, combined with remaining claimed elements are not suggested in the prior art,

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2627

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
